FIG. 21  
Lo Gach site in Long An Province showing  
general view (top), the weathered edge of  
the cultural deposit (middle), and a sec-  
tion made in March of 2004 showing the  
depositional layer with ceramic pedestal  
fragments (bottom).

FIG. 22  
Four different types of three-pronged  
pedestals — a technical ceramic form  
used for salt making — excavated at  
Go O Chua in Long An Province.
